## Ingredients

Organic skimmed **milk**, organic vegetable oils (palm oil, rapeseed oil, sunflower oil), organic **lactose**, organic **whey** partially demineralised, organic galacto-oligosaccharides from **lactose**, calcium carbonate, emulsifier (**soya** lecithin), vitamin mix [vitamin C, niacin, vitamin E, pantothenic acid, vitamin A, thiamin (vitamin B1), vitamin B6, riboflavin (vitamin B2), folic acid, vitamin K, vitamin D, biotin, vitamin B12], ferrous sulphate, potassium chloride, sodium chloride, L-tryptophan, zinc sulphate, magnesium carbonate, copper sulphate, potassium iodide, manganese sulphate, sodium selenite.

Allergens: see ingredients in **bold**

## Indications

HiPP Organic follow on milk 2 is an ideal complement to the weaning diet from 6 months, when moving on from breast or infant milk feeding. It should not be used as a breastmilk substitute before this age.

## Contra-indications

- Not suitable for intravenous use.
- Not suitable for cows' milk protein or soya protein allergy
- Not suitable for lactose intolerance
- Not suitable for vegetarians.

## Preparation

HiPP Organic follow on milk 2 is available in both powder and ready-to-feed liquid formats (see separate data card). The powdered product requires mixing with boiled water cooled to no less than 70 degrees C, then further cooled before feeding to babies. It can be administered from a bottle or feeding cup as appropriate. All HiPP Organic products carry preparation instructions on the packaging.

Scoop weight – approx. 4.7g

Standard dilution – 14.1g (3 scoops) + 90ml water (14.1% dilution)

## Pack format and product code

HiPP Organic follow on milk 2 powder is available 800g powder packs, and 250ml bottles.

Product code: HiPP organic follow on milk 800g powder – **GB2049.90**

## Storage

Packs should be stored in a cool, dry place; do not refrigerate, and use contents within three weeks of opening.

**Important notice:** Breastfeeding is best for babies. HiPP Organic follow on milk is intended for use after 6 months of age as part of a mixed diet and should not be used as a breastmilk substitute before this age.
